

A photograph of a modern, dark-colored gate and fence system at night. The gate is partially open, revealing a driveway leading to a modern house with large windows and a wooden exterior. The gate and fence have illuminated horizontal bands. A tree is visible on the left, and a small electronic device is mounted on the fence post on the right.

GATE & FENCING BROCHURE

The Uk's No.1 National Network of Gate Installers

Horizal is a world-renowned European manufacturer, specialising in aluminium gates of outstanding quality. Horizal entrusts the sale and installation of their products through the only professional aluminium gate network in the UK known as "The Horizal Approved Partner Network".

Specialists in aluminium gates, approved and regulated within the UK gate Industry, "The Horizal Approved Partner Network" have the training and expertise that guarantees a high-level of professionalism that any buyer of Horizal gates deserves.

Why Horizal?

- 
- ✓ A vast range of **innovative designs**, with many personalised solutions.
 - ✓ Individually made, with **heavy-duty framework**, all products are factory-tested.
 - ✓ **Reinforced for fixing automation** equipment, for robust operations in all weather conditions.
 - ✓ Designed to be dismantled to replace any sections accidentally damaged, **rather than replacing with a new gate**.
 - ✓ All products are manufactured from "Qualimarine" grade aluminium, **the highest European standard**.
 - ✓ All products are finished and protected with the "**Qualicoat Class-2**" process. **The highest European standard** for the coating of aluminium in external conditions.
 - ✓ Reinforced resistance to UV and weather with "**Qualicoat class-2**" high-durability coatings.
 - ✓ Confidence in a **world-class product**, now sold in over 30 countries worldwide.

Your Horizal approved gate installer will ensure you are presented with the correct and ideal solution for your project with advice on all elements of the installation. You can feel safe in the knowledge that you are receiving an excellent product and service from start to finish.

THE BENEFITS OF ALUMINIUM

Aluminium is an increasingly popular material:

- Aluminium does not rust, it resists time and climatic changes. Maintenance is minimum.
- Lightweight, putting less strain on the mechanical parts and masonry.
- Aluminium is a recyclable material.
- Aluminium is malleable yet robust, so can be designed in many different styles.

Over 250+ Non-standard RALs Available!

The entire RAL colour chart is available as a class-1 or class-2, Fine-textured, matt or gloss (to be confirmed when ordering).

25-YEAR GUARANTEE

A 25-year guarantee covering maintained coatings & a 10-year guarantee on product build, components and horizontal accessories.

*Always confirm the correct RAL from our full colour sample swatches to ensure an exact match before ordering. Printed RAL colours may vary.

Contemporary Painted Collection

Page 4.

The Contemporary Painted collection covers a large range of models with several types of infills, from semi-open and fully open gates, with flat or curved tops, to fully boarded gates with horizontal boards.

Contemporary Woodgrain Collection

Page 5.

The Contemporary Woodgrain collection features four woodgrain options and is an excellent maintenance free replacement for wooden gates. There are many models and shapes to choose from in the Contemporary range.

LED Collection

Page 6.

An innovation in the industry, the LED collection features LED controlled lighting inside of the gate profiles to give a desirable look. These can also be controlled on a timer or via mobile phone app (Night & Day range).

Traditional Collection

Page 7.

The Traditional collection replaces wrought iron gates without the inconvenience of corrosion and excessive maintenance. The customisation of the traditional range offers a considerable number of aesthetic options and a choice of combinations to make your gate a unique piece.

Anodised Collection

Page 8.

The anodised collection undergoes a specialist process of anodisation surface-treatment, labelled and protected by the Qualanod™ quality label which guarantees the performance of resistance tests and the thickness of the anodising layer.

Stainless Collection

Page 9.

The stainless collection features a modern style with brushed stainless-steel inserts in 4 shapes of inserts: Square, diamond, vertical strips and horizontal strips. The stainless-steel inserts are placed symmetrically on both sides of the gates to replicate the effect both inside and out.

Lazer Collection

Page 10.

The Lazer range offers a series of multiple styles of laser cut aluminium sheets. Most patterns are available in two formats, vertical and horizontal and are integrated within the gate profile to offer a total of 30 variations. A collection that combines style and originality.

Akordia Collection

Page 11.

This unique and stylish collection is available with standard 125mm boards and optional 250mm board, a number of models with variations of opaque glass, brushed stainless-steel or mirrored stainless steel inserts to give a personalised feel to your gates.

Revelation Collection

Page 12.

This collection offers many different customisation options to create your own individual design. With bar, mesh and glass infills in a wide choice of colours you can "mix and match" so many different components to create your perfect gate.

Confidence Collection

Page 13.

Offering a completely different look and feel to our other collections, a selection of murals bring a touch of originality and elegance to suit the most discerning customer.

Garden/Pedestrian Gates

Page 14.

All of our models and collections offer a matching garden gate equivalent to ensure pedestrian access and a full completed access solution to any property. With a manual keyed lock and handle by default these can also be fitted with a coded or electric strike lock for increased convenience and security.

Fencing

Page 14.

Complete your project with a selection of fencing available in wall-top and full height to ensure a safe and secure perimeter. Available in many different matching models and colours finished and protected with the Qualicoat™ class-2 quality label.

The Contemporary Painted Collection

The Contemporary Painted collection covers a large range of models with several types of infills, from semi-open and fully open gates, with flat or curved tops, to fully boarded gates with horizontal boards.
